Throughout our history quality has been our trademark. Aptos heritage counts up to **30 threads** and more than **50 methods** shared worldwide via selected professional distribution partners. Aptos threads and methods have obtained 18 patents of which 8 are international. Being the creators of the pioneering product, we have constantly met the aim to be a reliable partner for the practitioners worldwide.

We are more than our products - an ecosystem of training centers, materials and value-added offers was designed to support the doctors to deliver to their patients the very best services.

#### MISSION & VISSION

- Created by doctors for doctors, Aptos threads and methods have been transforming the aesthetic medicine since the inception.
- Anticipating technology trends, we improve our products to make beauty and wellness accessible and affordable for more people.
- Aptos is defining the future of aesthetic medicine. Our mission is to improve the technology to the point when it fully eliminates the possibility of human error.

Experience with Aptos threads from South Africa.

🌐 SOUTH AFRICA

**Olga Zhukova** ⌚ 17:45

Histological rationale for Aptos Threads efficacy.

🌐 RUSSIA

# GLOBAL RELEASE

📅 Friday, February 1, 2019

🕒 11:00 CET

Room: 253

AVAILABLE

3<sup>rd</sup> Generation Aptos threads with  
**Hyaluronic Acid**

## Main results

P(LA/CL)HA threads have more favorable effect on the skin within 14-90 days period after implantation:

1. Thickness of the capsule is more stable;
2. Elastin is intensively produced at an earlier stage of implantation allowing visible improvements quicker;
3. The earlier activation of collagenesis leads to early recovery, increased density and elasticity of the aging dermis.

Thus, patients have more comfortable rehabilitation period and notice the expressed results much faster!

anti-inflammatory action  
elastin stimulation  
collagen stimulation  
prolonged hydration of derma
